Set contents:

- **Sejf SecureBox-10,**
- **two keys,**
- **two mounting screws.**

Open:

- 1. Insert the key into the lock located on the front of the safe.**
- 2. Turn the key clockwise until the mechanism unlocks.**
- 3. Open the door by gently pulling on it**

Safety:

- **Never store your keys in the safe – if the door is slammed shut, you will not be able to open the safe.**
- **Place the safe in a discreet and hard-to-reach place.**
- **It is recommended to mount the safe to the ground or wall using the mounting holes and screws included in the kit.**
- **Do not leave the safe unattended.**
- **Protect the key – losing the key will prevent access to the contents of the safe.**

Maintenance:

- **Regularly check the condition of the lock and mechanism – in case of resistance, gently lubricate the slide with a special lock preparation.**
- **Keep the inside of the safe clean by wiping it with a dry or slightly damp cloth.**

- **Avoid contact of the safe with water and moisture – the steel structure is resistant, but prolonged moisture can lead to corrosion.**
- **Check the wall or floor attachment to make sure that the screws are securely tightened and that the safe is stable.**
- **If you notice mechanical damage, do not use force – contact the service.**
