Access control system with RFID SecureEntry-AC100

SecureEntry-AC100 was designed to manage the control of the Access to various types of buildings. The device offers Verification via RFID card and password. Penetration resistance The water allows installation outside the building.

Access control system with RFID SecureEntry-AC100

Model	SecureEntry-AC100	**Keyboard**	silicone keys
RFID cards supported	125 kHz	**Working temperature**	0~45℃
Type	External access control system	**Temperature storage**	-20~60℃
Interface	Wiegand 26/ Wiegand 34	**Operating humidity**	40%~90%
Type of verification	RFID card, password	**Storage humidity**	20%~90%
Max. number of employees in the base	1000	**Product dimensions**	11 x 6 x 2,2 cm
Number of buttons	13	**Package dimensions**	13,5 x 9,8 x 3,5 cm
Access control	yes	**Product weight**	50 g
Voltage	DC12V±10% , Current: 0,1A	**Product weight with packaging**	100 g
