RFID access keypad SecureEntry-AC700HF

Model	SecureEntry-AC700HF	Operating voltage	DC 12 ~ 18V
Fabrication material	ABS	Standby current	≤35mA
Verification type	RFID card, password	Degree of protection	IP66
Device type	Access keypad for RFID card and password	Operating temperature	-40°C ~ 60°C
Number of keys	12	Operating humidity	0% ~ 95%
Keyboard and keys	silicone keys	Product dimensions	12,2x5x2,1 cm
Reading distance	3 ~ 8 cm	Package dimensions	13x7,5x5,5 cm
Cards read	Mifare	Product weight	155 g
Frequency of operation	13,56 MHz	Weight with packaging	210 g
Interface	Wiegand 26		
Access control	yes
