

RFID access control reader SecureEntry-AC800LF

SecureEntry-AC800LF is a sleek RFID card and password reader offering building and room access control and management. It supports 125 kHz cards. Features compact shape and modern design. It offers a DC voltage of 9-16V and has a Wiegand 26 interface with the ability to change to Wiegand 34.

RFID access control reader SecureEntry-AC800LF

Model	SecureEntry-AC800LF	Data transfer	in real time
Warranty	1 year	Operating voltage	DC 9V - 16V, standard 12V
Device type	RFID reader with access control	Operating current	70mA
Frequency of operation	125 kHz	Interface	Wiegand 26 lub 34- 60°C
Verification type	RFID card, password	Operating temperature	-25° C - 75° C
Speed of response	less than 0.2 seconds	Operating humidity	10%-90%
Reading distance	5-10 cm	Product dimensions	8,6 x 8,6 x 2 cm
Light signal	two-color LED	Package dimensions	10,5 x 9,5 x 2,8 cm
Sound signal	built-in speaker (buzzer)	Product weight	100 g
Access control	yes	Weight with packaging	300 g
Communication distance	100 meters
