Medium range RFID reader SecureEntry-CR200WG

SecureEntry-CR200WG is an advanced mid-range RFID reader. It quickly and seamlessly reads 125 kHz RFID cards from a distance of 80 cm up to **1 meter**. It features a **voltage of 12V** and will work well as a building access device.

Medium range RFID reader SecureEntry-CR200WG

| | | | |
|-------------------------------|--------------------------|--------------------------------|----------------------|
| Model | SecureEntry-CR200WG | Type of chip to be read | EM |
| Warranty | 1 year | Interface | Wiegand 34 |
| Color | dark grey | Communication distance | ≤100m |
| Device type | medium range RFID reader | Operating temperature | -10°C - 70°C |
| Verification type | RFID card | Product dimensions | 26 x 26 x 3,5 cm |
| Frequency of operation | 125 kHz | Package dimensions | 28,3 x 26,6 x 4,6 cm |
| Reading range | 80 - 100 cm | Product weight | 2 kg |
| Voltage | DC 12V | Weight with packaging | 4 kg |
| Working current | ≤100mA | | |
