Access control power supply SecureEntry-PS20-5A

SecureEntry-PS20-5A is a powerful, advanced power supply designed to to power all kinds of access control devices. Works with devices with DC12V voltage. Metal housing ensures resilience and long life.

Access control power supply SecureEntry-PS20-5A

Model	SecureEntry-PS20-5A	**External remote control**	with 7-hole remote control socket
Warranty	1 year	**Operating temperature**	-20~ +60℃
Fabrication material	metal casing	**Operating humidity**	0~90%
Type of device	power supply for access control devices	**Backup battery port**	yes
Input voltage	AC110-240V	**Product dimensions**	12,2 x 7 x 3,6 cm
Output voltage	DC12V	**Product weight**	500 g
Output current	5A	**Dimensions with packaging**	16 x 8 x 5 cm
Time delay adjustment	1~15 s	**Weight with packaging**	900 g
Electric lock port	NC/GND
