

The SolidHand-FS02 mount allows you to firmly mount two monitors weighing up to 9 kg and diagonal from 17 to 32 inches, compatible with the VESA 75x75 or 100x100 standard. Thanks to the mechanical spring, it allows for precise positioning of the screens – with the possibility of their rotation, tilt and vertical operation – ensuring comfort and better organization of the workstation.

Dual Monitor Arm with VESA SolidHand-FS02
