Stationary barcode reader HD-S90-RS232

The HD-S90-RS232 is a desktop barcode reader characterized by a small, minimalist design. It is made of high quality materials for strength and durability. It is ideal for use in small stores and boutiques. It efficiently and quickly reads 1D codes.

Stationary barcode reader HD-S90-RS232

Model	HD-S90-RS232	Current consumption	100 mA
Scanner type	laser	Operating temperature	0 to 50°C
Light source	650-670 nm Laser	Storage temperature	-40 to 70°C
Scanning method	automatically	Operating humidity	5 to 90%
Interface	RS232	Storage moisture content	5 to 90%
Weight of the device	40 g	Cable length	200 cm
Weight with packaging	170 g	Scanning speed	100 times/second
Dimensions of the device	55 x 65 x 30 mm	Scanning angle	45°
Package dimensions	170 x 120 x 70 mm		

Readable 1D codes UPC/EAN, UPC/EAN with Supplemental, UCC/EAN 128, Code 39, Code 39 Full ASCII, Trioptic Code 39, Code 128, Code 128 Full ASCII, Codabar, Interleaved 2 of 5, Discrete 2 of 5, Code 93, MSI, Code 11, RSS variants
