## Multidimensional code reader HD-SL36A

The HD-SL36A wired multidimensional code scanner is a professional equipment with a modern and elegant appearance, affecting the aesthetics of the environment. The reliable scanning system allow storead 1 Dand 2 Dcodes, including from LCD screens. The reader is characterized by excellent reading of the AZTEC code found in the vehicle registration certificate.

## Professional reader of multidimensional codes HD-SL36A

| Model                       | HD-SL36A  |                     |             |
|-----------------------------|---|---------------------|-------------|
| Matrix                      | CMOS  | Working temperature | -10 to 50°C |
| Resolution                  | 640 x 480 px  | Storage temperature | -20 to 60°C |
| Processor                   | 32bit ARM   | Working humidity    | 5 to 95%    |
| Scan method                 | manually / automatically  | Storage humidity    | 5 to 95%    |
| Interface                   | USB, Virtual COM  |                     |             |
| Device weight               | 185 g   |                     |             |
| Weight with packaging       | 350 g   |                     |             |
| Device dimensions           | 163 x 68 x 80 mm  |                     |             |
| The dimensions of the stand | 107 x 80 x 130 mm   |                     |             |
| Cable length                | 150 cm  |                     |             |
| Size of the package         | 105 x 80 x 240 mm   |                     |             |
| Readable 1D codes           | CodaBar, Code11, Code32, Code39, Code93, Code128, IATA 2of5, Interleaved 2of5, GS1 DataBar, HongKong 2of5, Matrix 2of5 MSI Plessey, NEC 2of5, Pharmacode Plessey, Straight 2of5, Telepen, Trioptic, UPC/EAN/JAN, Codablock F, microPDF, GS1 Composite |                     |             |
| Read 2D codes               | MaxiCode, DataMatrix (ECC 200), QR Code, microQR, Aztec, HanXin, GoCode   |                     |             |
