Hook Scale **wagPRO-H10**

Table of contents

Specifications: 3
Set contents:..... 4
Tare function: 4

Specification:

- **Warranty:** 1 year
- **Material:** metal, plastic
- **Maximum nominal load:** 10 kg
- **Accuracy:** 50 g
- **Available units:** kilograms, pounds
- **Additional features:** tare
- **Auto Power Off:** No
- **Device dimensions:** 44 x 17.5 x 4.5 cm
- **Package dimensions:** 24.5 x 20.5 x 8 cm
- **Device weight:** 620 g
- **Weight with packaging:** 860 g

Set contents:

- Hook scale,
- two steel hooks.

Tare function:

The tare function on the hook scale allows you to set the scale to zero, even if there is an additional item on the hook, such as a container or bag, that is not part of the goods being weighed. To use this function, turn the knob located at the top of the scale until the indicator is set to zero. This allows for precise weighing of only the load itself, without taking into account the weight of the packaging or other auxiliary elements.
